[GANGSTER ISLAM: THE PROBLEM EUROPE IGNORES](#) [4]

Summary:

For over a decade, Europe's struggle to successfully integrate its Muslim population has been evident. But throughout the years a new and distinctly European phenomenon arose, which is as significant as it is underreported: Gangster Islam. It entails the conflation of the seemingly a-religious street culture of youths from a Muslim background on the one hand, and elements of the Islamic religion on the other. The German publication *Der Spiegel* once very [briefly](#) [5] touched on the matter, a Danish [documentary](#) [6] highlighted Islamic extremists recruiting gang members from a Muslim background, and a Dutch terrorism expert [pointed out](#) [7] how Syrian returnees were more likely to live a life of crime in order to finance the jihad, than to actually commit a terror attack.

This is how Sheikh Abu-Bakr Naji, the late theoretician of the Sunni version of the Islamo-apocalyptic movement, put it: "No one should feel safe without submitting, and those who refuse to submit must pay a high price. The aim of our movement is to turn the world into a series of wildernesses in which only those under our rule enjoy security."

The sheikh's neo-jihadi theory was explained a decade ago in his magnum opus "Governance in the Wilderness" ("Edarat al Tawwahush"). The book rejected al Qaeda's theory of war based on the assumption that "the infidel" would succumb to Islamic rule with a few spectacular attacks such as 9/11 against New York and Washington. The sheikh further examines what he calls "the five schools of jihad" to reveal their inadequacies.
