Iran: Demonstrators chant “We don’t want an Islamic Republic, we don’t want it, we don’t want it”

Dear White Liberal Apologists of Islam,

I understand your need to want to come to the rescue of the 'poor brown Muslim' because they are the 'marginalized minorities in the bad evil West', but you are not helping anyone by saying that freedom of speech should stop where the hurt feelings of Muslims start.

You had your Christian enlightenment, with the help of the minorities within your religion who wrote great critique of religion, who satirised its ideas, and challenged its authority. That minority who dared to challenge the dogmas were persecuted for it, and in some cases, killed for it, but in the end, Reason did prevail (to most ends).

It is now our time to do this with our (ex)religion -Islam. We the minorities within Islam who are all for freedom of expression and freedom of speech, which also includes the right to offend religious feelings, need to challenge our authority, our holy books, our sacred ideas and scriptures. It is our time to bring about enlightenment. It is our time to progress. Please don't get in our way.

Kindest regards,
A minority person in Islam
