### Summary:

- In the twentieth century, targets were churches and synagogues; today, they are churches, synagogues, mosques, temples -- wherever there is a faith, even a Muslim one, that these Islamic fundamentalists want to "purify".
- Radical Islam has declared war on the pillars of the West: modernity, science, rationalism, tolerance, equality under the law, freedom of expression and the dignity of the individual, to name only a few. Many of these ideas are currently under threat in Western Europe.
- Many Europeans might sentimentally think of the hundreds of thousands of Muslims pouring into Europe as "the new Jews" -- even though their culture is virtually opposite to the Jews' -- but perhaps the Europeans should be aware that they have now forced the Jews to flee *twice* in the modern era.
- Islamists are erasing civilizations. Is Europe's next?
