**Summary:**

The child had various injuries on her body, including a punctured intestine, damaged liver and broken ribs. Some reports stated that Nur Aina was subjected to a commando-like routine by the suspect, who is her biological father. This included doing push-ups, sit-ups, rollovers and squats. She was also reportedly beaten, among others, with a plastic chair and belt, slapped, kicked and even stomped on. The child was made to undergo these "punishments" because Nur Aina did not recite prayers before bedtime, made mistakes while reciting the Quran, or did not obey the man's instructions, reports said.
