### Summary:

rism is blessed by Allah and Muhammad, then we have got a problem with them. Memri does an excellent job of not giving commentary on what is going on in the culture of radical Islam. All they do is simply provide simple translations - and the scary reality hits you right in the face. We are facing a battle that will eat up the entire Western World if we don't contain it's threat and eradicate the most radical elements that threaten our way of life.
