[Sharia Councils and Sexual Abuse in Britain](#) [6]

Summary:

- As bad as this is, there is an even darker side to the story: Under sharia law, the second husband is under no obligation to give his wife a quick divorce - allowing him to keep her as his virtual sex slave for as long as he wishes.
- If one asks how all of this jibes with British law, the answer is that it does not.
- The UK-based NGO, Muslim Women's Network, penned an open letter -- with 100 signatories -- to the British government and Home Affairs Select Committee demanding that the Sharia Council be investigated to determine whether its practices adhere to British law. In response, the Sharia Council declared the letter to be "Islamophobic" and accused the Muslim Women's Network of being an anti-Muslim organization.

- It is British law, not sharia, law that protects Muslim individuals and couples, as it does any other citizen. Contrary to what apologists for this travesty say, the plight of Muslim women should be treated as an issue of human rights.

Summary:

From the mainstream press, scholars, and Muslim spokespersons who have access to the media, we have heard that Islam is the religion of peace. They point out that the three-letter root *s-l-m* is found both in *Islam*, which means surrender or submission (to Allah), and *salam*, which means peace, soundness, and safety. This etymology may be accurate, but it also serves merely as a positive advanced press release that covers up some problems. For more information on the incongruity of the Arabic root *s-l-m* and Islam being the religion of peace, see this [short article](#) [10].

Upon reading the original source documents of Islam—the Quran, hadith, biographies, and histories—one is struck by the casual and matter-of-fact way that Muhammad and his Muslims traffic in violence and bloodshed.

Summary:

One of the most telling observations about the character of people is how they deal with their enemies. When we are put under pressure by being challenged and questioned, then our real character and personality is revealed that might easily be hidden when everything is under control. The allegedly "flawless character of Muhammad" is often used as evidence that he is the prophet of God and his message, the Qur'an, the very word of God. This page will provide you with source material and our conclusions so that you can read and make your own evaluation and informed decision what you will believe about this historically very important person who greatly influenced our world for better or worse. The following are names of people whose execution was suggested, requested or ordered by Muhammad. Many of them were assassinated, some got away for reasons of unforeseen circumstances. But deeds are judged by intention and the intention or request for assassination is serious in itself.

[Meet the Dutch Muslim Writer Who Predicted Europe's Islamist Problem](#) [21]

Summary:

In the latest terrorist attacks, a bomb blew up inside a St. Petersburg subway station, killing 14 Russians, barely a fortnight after a jihadi killed four people in London, England.

Yet there are still many in Canada who wrongly believe the enemy we face is Islamophobia and not Islamofascism.

By contrast, in Europe, it is increasingly difficult to conceal the truth under the guise of political correctness.

[Does the Koran Forbid the Killing of Non-Muslims?](#) [24]

Summary:

See Ibn Kathir’s interpretation of 5:32 at <http://tafsir.com/default.asp?sid=5&tid=13723> [25].

I will present evidence that (1) the good part of 5:32 - the part that sounds like a prohibition against murdering any innocent human being - is taken from pre-Islamic sources, and will show (2) that the omitted parts of 5:32, when included, change the meaning dramatically, actually permitting killing of non-Muslims in a wide variety of circumstances.

(1) The good part of verse 5:32 does derive from earlier sources.

In context, the decree doesn't apply universally to all peoples. The verse refers to the Israelites in Biblical history. The verses just preceding 5:32 discuss the story of Cain and Abel. It is almost certain that the good part of the verse 5:32 is actually of Jewish origin, long predating Mohammad and the Koran. This excerpt, discussing the decree's origin, speaks for itself:

Summary:

For years, Egyptian Copt Michel Fahmy could hear a Muslim preacher invoking God's wrath on Christians in sermons blared over loudspeakers from a mosque near his home. The radical message, he says, is a reason for jihadist attacks on his minority like the twin bombings of churches on Sunday that killed 45 people.

[Geert Wilders and the Suicide of Europe](#) [30]

Summary:

- None of Wilders's speeches incites violence against anyone; the violence that surrounds him is directed only at him.
- The only person talking about these problems is Geert Wilders. Dutch political leaders and most journalists seemingly prefer to claim that Geert Wilders is the problem; that if he were not there, these problems would not exist.

- What adherents of this view, that the West is guilty, "forget" is that Islam long oppressed the West: Muslim armies conquered Persia, the Christian Byzantine Empire, all of North Africa and the Middle East, Spain, Greece, Hungary, Serbia and the Balkans, virtually all of Eastern Europe, Greece and southern Spain. The Muslim armies were a constant threat until the marauding Ottoman troops were finally turned away at the Gates of Vienna in 1683.

Summary:

More than 5,000 police officers from every force in the UK have turned out to pay their final respects to hero PC Keith Palmer, who was killed in the line of duty during the London terror attack in March. The largest-ever gathering of British police officers will line the route to Southwark Cathedral, where the officer's funeral service is taking place. Changing cubicles have been provided for officers who have been advised not to travel to the city wearing their uniforms for "personal safety reasons". The advisory has been issued by the Metropolitan Police Federation.
